

“Coal Country”

A stunning new documentary that reveals the devastation of mountaintop-removal coal mining to the forests, streams, and communities of Appalachia.

(Sierra Club Productions)

Thursday, January 28, 2010

Thomas Jefferson Unitarian Church

4936 Brownsboro Road

7:00 – 7:25 pm *Anne Caudill* - Introduction & remarks

7:25 – 8:05 pm “Coal Country”

8:05 – 8:20 pm *KFTC* - “*I Love Mountains Rally & Protest*”

(To be held on 2/11/10 in Frankfort)

'More than 500 mountains have been leveled by this coal-mining practice, and more are under threat right now. Many of you reading this post are benefiting from the power generated by the coal mined using this practice -- but have no idea what's going on or the effect it is having on the Appalachian people, and in one of the world's most diverse ecosystems... people must know about this destructive practice and get involved to stop it.'
